*K-1 visas are more similar to an immigrant visa. As such, they are pre-processed in the immigrant operating system then moved to the nonimmigrant operating system once a case has been deemed eligible for visa issuance. The K-1 data previously published on this site reflected adjudications only taken after that transfer had been made – thus it provided data from only one operating system (the nonimmigrant visa system). This was consistent with the data for the other nonimmigrant visas, which are only processed in that system. The current K-1 data reflects processing actions which occurred in both operating systems.
